

Strong-edge topology after alignment (top 10%; graph 371)

Empirical top edges

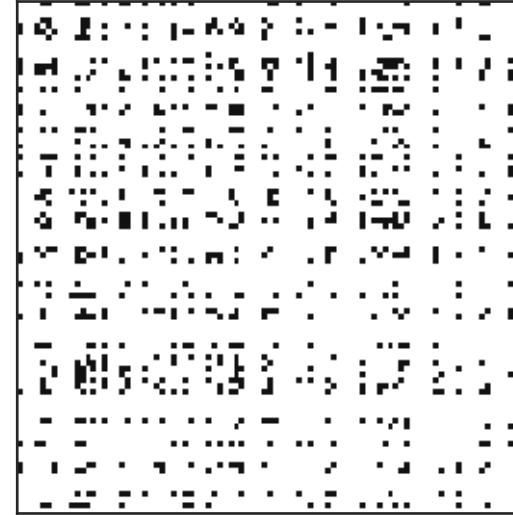

Raw synthetic top edges

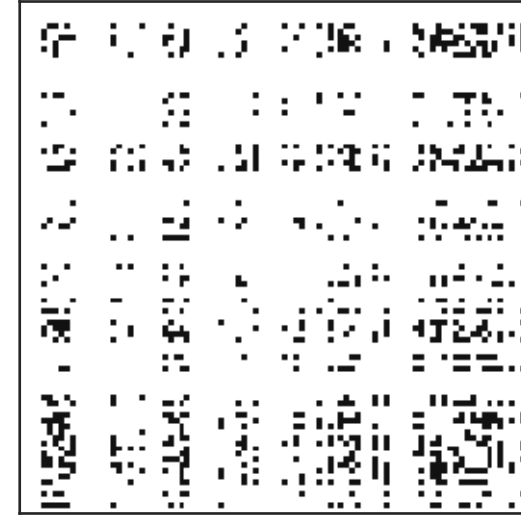

Jaccard=0.087; F1=0.160; shared=64

MLP-aligned top edges

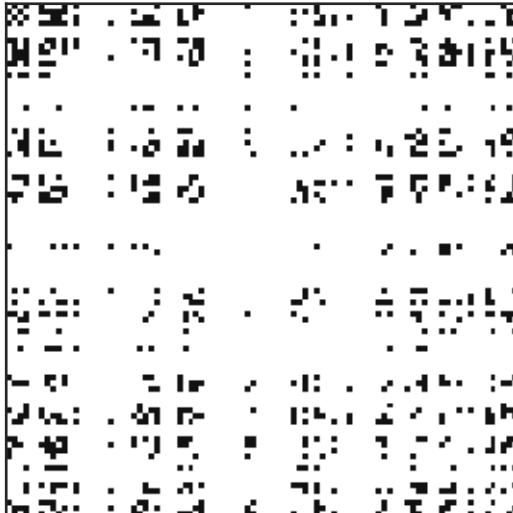

Jaccard=0.051; F1=0.098; shared=39

GIN-aligned top edges

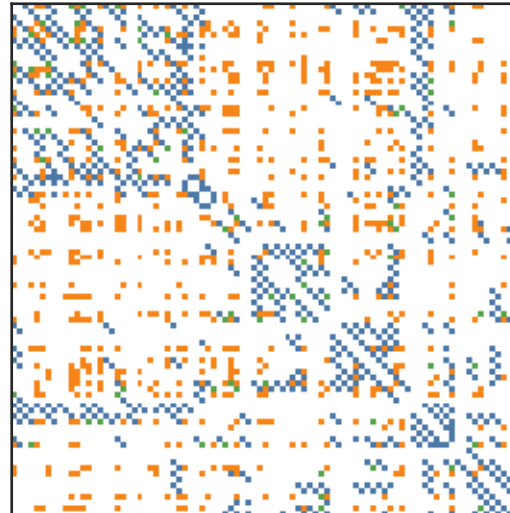

Jaccard=0.061; F1=0.115; shared=46

GAT-aligned top edges

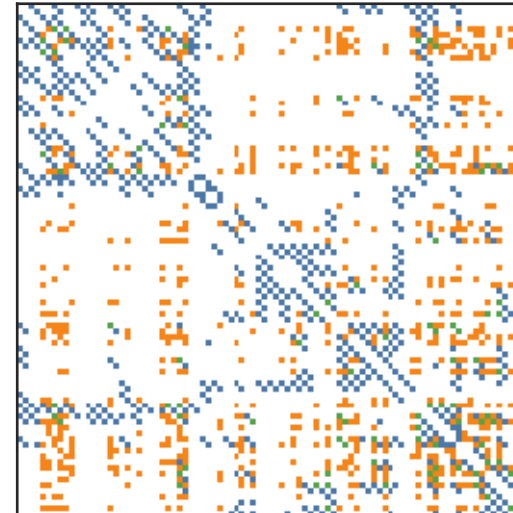

Jaccard=0.083; F1=0.152; shared=61

Empirical versus MLP

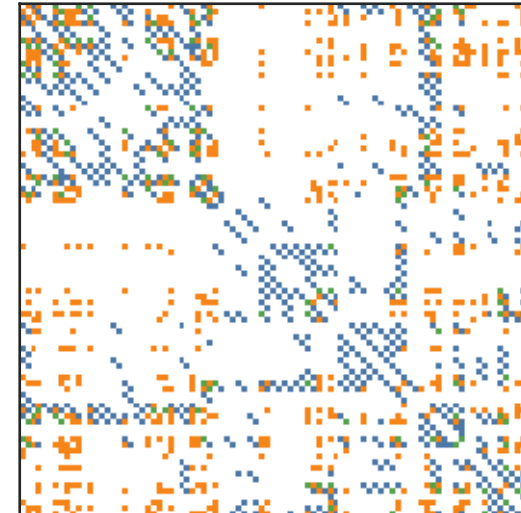

Precision=0.098; recall=0.098

Empirical versus GIN

Precision=0.115; recall=0.115

Empirical versus GAT

Precision=0.152; recall=0.152

Empirical only Synthetic only Shared

Each mask retains the strongest fixed proportion of all possible undirected node pairs. Original weighted matrices are unchanged.
